

The Institute of Taxation

Established under the license
of SECP

About the Institute

- The **Institute of Taxation in Pakistan**, a Not-for-profit corporate entity licensed by SECP, Pakistan, is set to revolutionize the national tax landscape. As Pakistan's premier body for tax education and training, the Institute offers cutting-edge courses like Certified Tax Manager (CTM), Certified Tax Advisor (CTA), and Advanced Certificate in International Taxation (ACIT).
- Embodying modern tax policy and practice, it champions fiscal laws, tax technology, and advanced compliance tools, including 'Data Analytics', 'Revenue Forecasting', use of 'Tax Engines', 'Digital Reporting Requirements -DRR', "Complete Transaction Control - CTC", 'Generative AI in Tax', and 'Tax Transformation'.
- Beyond education, the Institute serves as a vital '**Think Tank**' for the Government, fostering international best practices in sustainable governance, bed rocked in an equitable and fair tax system that safeguards both taxpayer's rights and government revenues. This '**Thought Leadership**' is committed to upholding the highest moral and professional ethical standards.
- The Institute will also empower and upskill the tax professionals with a robust cybersecurity framework, ensuring data privacy in an ever-evolving digital tax world through a responsible use of AI.

Vision Statement

To be the premier leader in tax education, research, and professional development in Pakistan, recognized internationally for shaping a knowledgeable and ethical tax profession that contributes to a robust, equitable and fair fiscal landscape.

Mission Statement

To advance tax excellence in Pakistan by providing comprehensive tax education and training, fostering insightful policy discourse, and empowering tax professionals with the knowledge and skills necessary to serve the nation's economic growth and ensure a fair and efficient tax system for all.

Core Values

Excellence: Upholding the highest standards in tax education, professional development, and research, ensuring relevance, accuracy, and practical applicability.

Integrity & Ethics: Promoting a culture of honesty, transparency, and ethical conduct within the tax profession and in all interactions with taxpayers and the government.

Knowledge & Innovation: Fostering continuous learning, critical thinking, and innovative approaches to tax policy, administration, and professional practice.

Public Interest: Serving the broader community by advocating for sound tax policies that balance government revenue needs with economic growth and taxpayer equity.

Professionalism & Competence: Empowering tax professionals with the expertise, skills, and commitment to lifelong learning necessary to excel in their roles and advise effectively.

Collaboration & Engagement: Building strong partnerships with government bodies, international development partners, global tax outfits, professional organizations, academia, and the business community to enhance tax understanding and compliance.

Accountability: Taking responsibility for our actions, decisions, and impact on the tax landscape, and striving for continuous improvement.

Fairness & Equity: Promoting a tax culture and system that is perceived as just, equitable, fair and applied consistently to all taxpayers.

Company's Objectives

- To promote education in taxation and fiscal laws by establishing and managing institutes, training centers, and educational institutions focused on taxation, fiscal policy, and related disciplines. The company will collaborate with national and international bodies to enhance professional training and capacity-building, and may engage local and foreign experts, subject to relevant approvals, without operating as a university or degree-awarding institution.
- The company will offer specialized certification programs such as Certified Tax Manager (CTM), Certified Tax Advisor (CTA), and Advanced Certificate in International Taxation (ACIT), along with other related courses.
- To take over the activities of existing entity, namely; The Institute of Taxation of Pakistan, a project owned by “Green Educational Trust”.

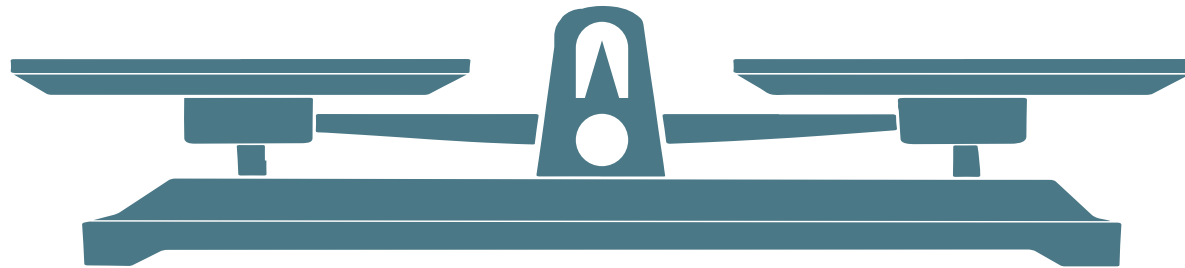

Governance of the Institute

Board of Directors

- Conduct and manage all the affairs of the Institute.
- Exercise all the powers, authorities and discretion necessary for the governance of the Institute.

Advisory Board

- Provide support in matters of governance of Institute, advising in fiscal tax policies, national and provincial budgets.
